Lehren Internationales
und Lernen im Studium

INSTITUT FÜR ETHNOLOGIE
GOETHE-UNIVERSITÄT FRANKFURT

WHAT IS IT ABOUT?

opportunities for **collaborative research** between students at Udayana University in Denpasar and at Goethe University in Frankfurt

support structure for the development of joint research projects and the writing of theses based on collaborative research

CollabAnthro Certificate

As part of the program, students can earn a certificate in Collaborative Anthropology (on top of the regular degrees). Eligible are all students enrolled in an M. A program at the Faculty of Humanities at Udayana University as well as all students enrolled in the B. A. and M. A. program at the Department of Social and Cultural Anthropology in Frankfurt

All students will be admitted upon request

Activities related to the CollabAnthro certificate may also count for your regular study program. For more information, please talk to your mentor at UNUD

OUT LINE

Collaborative research counseling

Counseling sessions (virtual or on site) with the program coordinator

Knowledge in collaboration

Courses in the regular study program on collaborative epistemologies

Virtual get-together

Regular meetings between all program participants

Reflecting collaborative research

Participation in a joint digital workshop to discuss research interests and reflect on possible formats for collaboration

Self study and matching

Self-organizing project teams, each with two to four students enrolled in at least two different institutions

Language skills

Enhancing language skills in English by participating in the program and in a second foreign language through courses or peer-to-peer learning (with an emphasis on local languages)

Designing collaborative research

Project teams participate in a workshop to develop and present joint research projects

Summer school 2024 in Frankfurt

Attending a three-day summer school at Goethe University (virtual attendance will be possible)

Joint research

Realizing a collaborative research effort. Collaborative research can be realized by conducting fieldwork together OR conducting research on the basis of a joint research framework and question

Documentation of research experience (research blog)

Project teams compile a joint entry for the CollabAnthro research blog

Completion and submission of thesis

The thesis is based on the collaborative research of the project team and counts equally for the regular study program as well as for participation in the certificate program
